DETAILED ACTION

1. The Amendment and the Declaration of Dr. Stahly, filed on 04/04/03, and the Supplemental Amendment resulted from the interviews with Eyal Barash and Michael Harlin and faxed on 05/30/03, are acknowledged. Claims 1-33, 35-36, 38-41, 46-48 and 50-80 are pending in the Application.

Response to Amendment

2. Objections and rejections, established in the previous Office actions, are withdrawn in view of the amendments and the Declaration.

Examiner's Amendment

3. In the title at the end add "OF ORGANIC COMPOUNDS".

Allowable Subject Matter

4. **Claims 1-33, 35-36, 38-41, 46-48 and 50-80** are allowed. The new numbering of claims is 1 through 73.

The following is an examiner's statement of reasons for allowance: the prior art applied in the previous Office actions or the new prior art, such as Lovqvist et al. (US 6,150,380), disclosing two different solid forms of omeprazole obtained by different modes of crystallization, does not teach or fairly suggest solidifying an organic compound in capillaries for screening its possible solid forms. The term "solid form" and classification of solid forms are interpreted the way presented by Dr. Stahly in the Declaration, i.e. the forms that give different X-ray structures, versus different crystal morphologies, which may have the same solid form.

Chyall et al. (Crystal Growth and Design) disclosing "polymorph generation in capillary spaces" is not prior art to the instant application.
